

Tyre Warmer-Tent

bicknell 
motorsport

Contact :- 07905 224246 Sales@bicknellmotorsport.co.uk

The Bicknell motorsport tyre warmer tent is designed to set up with minimal effort and to pack down efficiently.

The warmer will accept two sets of tyres stacked vertically and allows a gas space heater through the end of the tent.

A deflector plate is carefully positioned to the underside of the rack to optimise temperature spread over the eight tyres.

The temperature can be regulated by adjustment of the space heater and the opening of the vent at the end of the tent.

Suggested heater - Clarke Devil 850

Total weight including cover - 35 kg

The packed down size -

1900 mm x 900 mm x 150 mm
